STATISTICS EDUCATION RESEARCH JOURNAL

The *Statistics Education Research Journal (SERJ)* is a peer-reviewed electronic journal of the International Association for Statistical Education (IASE) and the International Statistical Institute (ISI). *SERJ* is published twice a year and is free.

SERJ aims to advance research-based knowledge that can help to improve the teaching, learning, and understanding of statistics or probability at all educational levels and in both formal (classroom-based) and informal (out-of-classroom) contexts. Such research may examine, for example, cognitive, motivational, attitudinal, curricular, teaching-related, technology-related, organizational, or societal factors and processes that are related to the development and understanding of stochastic knowledge. In addition, research may focus on how people use or apply statistical and probabilistic information and ideas, broadly viewed.

The *Journal* encourages the submission of quality papers related to the above goals, such as reports of original research (both quantitative and qualitative), integrative and critical reviews of research literature, analyses of research-based theoretical and methodological models, and other types of papers described in full in the Guidelines for Authors. All papers are reviewed internally by an Associate Editor or Editor, and are blind-reviewed by at least two external referees. Contributions in English are recommended. Contributions in French and Spanish will also be considered. A submitted paper must not have been published before or be under consideration for publication elsewhere.

Further information and guidelines for authors are available at: <http://www.stat.auckland.ac.nz/serj>

Submissions

Manuscripts must be submitted by email, as an attached Word document, to co-editor Robert delMas <delma001@umn.edu>. Submitted manuscripts should be produced using the Template file and in accordance with details in the Guidelines for Authors on the Journal's Web page: <http://www.stat.auckland.ac.nz/serj>

© International Association for Statistical Education (IASE/ISI), November 2012

Publication: IASE/ISI, Voorburg, The Netherlands

Technical Production: California Polytechnic State University, San Luis Obispo, California, United States of America

Web hosting and technical support: Department of Statistics, University of Auckland, New Zealand

ISSN: 1570-1824

International Association for Statistical Education

President: John Harraway (New Zealand)

President-Elect: Iddo Gal (Israel)

Past-President: Helen MacGillivray (Australia)

Vice-Presidents: Joachim Engel (Germany), Tae Rim Lee (South Korea), Irena Ograjensek (Slovenia), Alejandra Sorto (United States), Jessica Utts (United States)
